

Computing

"Technology is the pen and paper of our time."

David Warlick

Intent

At Wellesley Park Primary School, we want to model and educate our pupils on how to use technology positively, responsibly and safely through a broad curriculum encompassing computer science, information technology and digital literacy. Technology is everywhere and will play a vital role in children's lives, both in and out of school. We want our pupils to understand that there is always a choice with using technology and hope by Upper Key Stage 2, children have the independence and confidence to choose the best tool to fulfil the task and challenge set by teachers.

Implementation
